

**CAMPBELL COUNTY FISCAL COURT
MINUTES**

June 15, 2005

A regular meeting of the Campbell County Fiscal Court was held on Wednesday, June 15, 2005, at 5:30 p.m. at the Fiscal Court Conference Room, 24 W. 4th Street, Newport, Kentucky.

In attendance at the meeting were:

COUNTY JUDGE/EXECUTIVE
STEVE PENDERY

COUNTY COMMISSIONERS:
DAVID OTTO
KENNETH RECHTIN
MARK HAYDEN

Robert Horine	County Administrator
Laurie Dowell	Assistant County Attorney
Jim Seibert	Fiscal Affairs Director
Keith Hill	Chief, Campbell County Police Department
Greg Buckler	Campbell County Jailer
Ken Knipper	Director, Office of Emergency Management
Sarah Collins	Interim Director of Housing
Melissa Williams	Director of Administration
Sandra Mulligan	Fiscal Court Clerk

The meeting was called to order at 5:30 p.m. by Judge Pendery. A moment of silence was called for by Judge Pendery, followed by the Pledge of Allegiance. Following roll call, a quorum was declared present.

Judge Pendery presented the minutes from the Fiscal Court meeting of June 1, 2005. It was moved by Commissioner Otto and seconded by Commissioner Rechtin that the minutes of June 1, 2005 be approved. All voted "AYE" and the motion passed unanimously.

Judge Pendery next asked if there were any public officials or citizens in attendance at the meeting who desired to address the Court. There were none.

Judge Pendery then requested items of Old Business be brought before the Court. Ms. Williams reported that there were no items of Old Business to be presented at this meeting.

Judge Pendery next requested items of New Business be brought before the Court. Ms. Williams presented Resolution R-84-05, which she read by title and provided a summary to the Court for its consideration. She stated that this Resolution authorizes the County Judge/Executive to execute an Executive Order establishing the National Incident Management System as Campbell

County's standard for incident management, and authorizes the updating of the Campbell County Emergency Operations Plan to reflect this change. She noted that this implementation needs to be accomplished in order for the County to be eligible for future Federal funding. She stated that Ken Knipper, OEM Director, was present to answer any questions. There being no further discussion, Commissioner Rechtin made a motion and Commissioner Hayden seconded, to approve Resolution R-84-05. All voted "AYE" and the motion passed unanimously.

Ms. Williams then presented Resolution R-85-05, which she read by title and provided a summary to the Court for its consideration. She stated that this Resolution authorizes the County Judge/Executive to execute a Contract with Campbell County Water Rescue for Fiscal Year 2006 funding. She stated that there is a slight increase in the amount of funding from last year. She noted that Robert Horine, County Administrator, was present to answer any questions. There being no further discussion, Commissioner Otto made a motion and Commissioner Rechtin seconded, to approve Resolution R-85-05. All voted "AYE" and the motion passed unanimously.

Ms. Williams then presented Resolution R-89-05, which she read by title and provided a summary to the Court for its consideration. She stated that this Resolution adopts revisions to the Procedure Manual of the Campbell County Police Department. All references to the Campbell County Dispatch Center will be deleted, amendments will be made as necessary, and additional policies relating to rifles, mobile data terminals and in-car video cameras will be added to bring into compliance with the Kentucky Association of Chiefs of Police (KACP). She noted that Keith Hill, Chief of Police, was present to answer any questions, and stated that Ms. Dowell from the County Attorney's Office had reviewed the policies prior to the meeting. There being no further discussion, Commissioner Rechtin made a motion and Commissioner Hayden seconded, to approve Resolution R-89-05. All voted "AYE" and the motion passed unanimously. Commissioner Rechtin inquired of Chief Hill as to international accreditation for the police force. Chief Hill responded that the Campbell County Police Department is not CALEA (Commission on Accreditation for Law Enforcement Agencies) certified. He stated that international accreditation is a very expensive process and there aren't many more benefits than what the KACP provides. He is looking into this accreditation, but he is concerned about the cost. The accreditation has to be updated and recertified every year, which is \$10,000 per year to recertify. The KACP did a site inspection on June 10, reviewed the policies detailed in the Resolution, and will recommend the Department for another five-year accreditation once the Resolution is approved by the Court.

Ms. Williams next requested a motion to promote Todd Straman from Lieutenant to Lieutenant Colonel (Assistant Chief) in the Campbell County Police Department. Compensation will be set at \$58,159 annually (grade 15K). The promotion will be effective June 16, 2005. Judge Pendery noted that this motion and the next two to be requested on the Agenda, are a string of appointments necessary due to the promotion of Keith Hill from Lieutenant Colonel to Colonel. He stated that there is a very elaborate testing procedure that has a written component, an interview component, at times peer reviews, and input from the Chief of Police. The persons whose overall test results are the best, are generally the ones who are promoted. This system has worked in this instance and produced the best candidates to offer for consideration for promotion. Commissioner Hayden inquired as to whether the three motions could be voted on collectively. Judge Pendery stated that they should be voted on individually, in case there may

be an objection to one as opposed to the others. Ms. Williams stated that another reason to vote on these individually is because until the first promotion is approved, there is no vacancy in that level. Once the first one is approved, the vacancy then needs to be filled. There being no further discussion, Judge Pendery made a motion and Commissioner Rehtin seconded, to approve the motion. All voted "AYE" and the motion passed unanimously.

Ms. Williams then requested a motion to promote Barrett J. Champagne from Sergeant to Lieutenant in the Campbell County Police Department. Compensation will be set at \$24.18/hr. (grade 15B). The promotion will be effective June 16, 2005. There being no further discussion, Judge Pendery made a motion and Commissioner Hayden seconded, to approve the motion. All voted "AYE" and the motion passed unanimously.

Ms. Williams next requested a motion to promote Ronald Ratliff from Patrolman to Sergeant in the Campbell County Police Department. Compensation will be set at \$20.93/hr. (grade 13A). The promotion will be effective June 16, 2005. There being no further discussion, Judge Pendery made a motion and Commissioner Otto seconded, to approve the motion. All voted "AYE" and the motion passed unanimously.

Judge Pendery congratulated the officers who have been approved for promotions and stated that, in view of the fact that everyone tested very well, these are first among equals in some respects and everyone showed well. Chief Hill stated that these gentlemen would be present at the July 6 meeting of the Fiscal Court to formally receive their promotions.

Commissioner Otto inquired of Chief Hill as to the morale of the Department after the testing. Chief Hill stated the morale is quite well and there has been no residual affect from the testing, noting that everyone understood that the promotions would be recommended according to the highest scores.

Ms. Williams then requested a motion to recommend to the Campbell County Local Health Board that Sue Cole, R.N. be appointed to the Northern Kentucky District Health Board for a term beginning July 1, 2005 through June 30, 2007. The appointment is necessary due to the upcoming retirement of Phyllis Schenk, R.N. from the Board. There being no further discussion, Judge Pendery made a motion and Commissioner Hayden seconded, to approve the motion. All voted "AYE" and the motion passed unanimously.

Ms. Williams next requested a motion to nominate Sue Cole, R.N. to serve on the Campbell County Local Board of Health; said nomination to be submitted to the Kentucky Cabinet for Health and Family Services. The appointment is necessary due to the recent retirement of Betty Cottingham, R.N. from the Board. There being no further discussion, Judge Pendery made a motion and Commissioner Rehtin seconded, to approve the motion. All voted "AYE" and the motion passed unanimously.

Ms. Williams then requested a motion to reappoint Robert Schack to the Campbell County Extension District Board for a three-year term, effective July 1, 2005 through June 30, 2008. There being no further discussion, Judge Pendery made a motion and Commissioner Rehtin seconded, to approve the motion. All voted "AYE" and the motion passed unanimously.

Ms. Williams next requested a motion to reappoint Jack Scott to the Campbell County Extension District Board for a three-year term, effective July 1, 2005 through June 30, 2008. There being no further discussion, Judge Pendery made a motion and Commissioner Otto seconded, to approve the motion. All voted "AYE" and the motion passed unanimously.

Ms. Williams then requested a motion to reappoint Tony Geiman to the Southern Campbell Fire District Board for a three-year term, effective July 1, 2005 through June 30, 2008. There being no further discussion, Judge Pendery made a motion and Commissioner Rechten seconded, to approve the motion. All voted "AYE" and the motion passed unanimously.

Ms. Williams next requested a motion to appoint Edward C. Schumann to the District One Fire Department Board for a three-year term, effective July 1, 2005 through June 30, 2008. She noted that this appointment is due to the resignation of Garry Brady from the Board. There being no further discussion, Judge Pendery made a motion and Commissioner Hayden seconded, to approve the motion. All voted "AYE" and the motion passed unanimously.

Judge Pendery next requested reports from Staff. Mr. Horine, County Administrator, stated he had nothing further to report at this meeting.

Judge Pendery then requested a report from the County Attorney's office. Ms. Dowell stated she had nothing further to report from the County's Attorney's office at this meeting.

Judge Pendery next requested reports from the Commissioners. Commissioner Hayden reported that he and his wife attended a wine tasting event on June 12 at Stonebrook Winery in Camp Springs. He stated that they had a very good time enjoying the new facility and enjoyed the wine tasting very much. They were able to see the vineyard from the road and he hopes this will encourage all the farmers in the Southern part of Campbell County to grow grapes. He stated that Commissioner Otto has done a very good job of promoting grape growing and he would like to lend any hand that he can to Commissioner Otto to promote continuing the grape growing industry in Campbell County. Commissioner Hayden also stated that he had received an e-mail from Jeff Roberts of Stonebrook Winery asking if it was possible for the County to include a link for the Winery on the Campbell County website. County Administrator Robert Horine stated that he would take a look at that possibility and let Commissioner Hayden know the outcome. Commissioner Hayden also stated that he believes there needs to be a serious study of the security and protection of the County's Circuit and District Court Judges. He practices quite often in Campbell County, and he believes that having the Judges in two different locations and knowing those courthouses as he does, the County should be encouraging the proper authorities to do a study of the security of the Judges in the current facilities. He stated that this is a serious concern nationwide, particularly given the events that occurred in Atlanta and with the Federal Judge in Chicago. He believes the County has an obligation to the Judges to look very hard at the security in both of the courthouses. He also believes that a study may reveal some potential problems with the current security. Mr. Horine stated that he would make some contacts to see what organization would be in charge of conducting such a study, but he believes the Administrative Office of the Courts will be the proper one, since all of the Courts are under that State agency. Judge Pendery suggested talking to the Judges first as to whether or not they want to pursue this study, since they are in control of the Courthouse Commission.

Commissioner Otto stated that Chief Hill had mentioned that Ms. Williams' brother is working throughout the State on some security issues with cities and counties. Ms. Williams stated that this is the Office of Community Planning, and is a security type of study. This is the same program that Alexandria was one of the pilot cities for. There are approximately 5-7 people who come in and work with police and entities within the city and look at the different areas that could possibly be targeted and make recommendations on what can be done or beefed up to increase security. The City of Dayton has had a study done, and the City of Newport is in line to have one done. There is grant money available for the next two years to do 60 places across the State. There are several other cities that have applied for the funding, and there is additional grant money available if the city decides to implement some of the recommended programs. There is presently a waiting list to get in line for these studies.

Commissioner Hayden stated that before the County gets too far down the road on the plans to build the new Administration Building and unite the District and Circuit Courts, he believes the public would really like to know how secure the current courthouses are. He stated that his understanding is that the studies that have been done are ones that look at what the security would be like in a new, revised courthouse, but he believes it is more important to ask the question now as to what kind of security the County has for its Judges.

Commissioner Otto reported that he had discussed with Jailer Greg Buckler additional information he has obtained on the training of dogs by inmates. He has been in contact with a lady in Clermont County who is running this program for the Ohio Correctional Institute. Commissioner Otto and Mr. Buckler will be meeting with this lady to discuss the programs they offer. It is hoped that certain dogs from the Animal Shelter can be trained to be adoptable through this program, rather than putting them to sleep. After this aspect gets underway, they hope to be able to train dogs to assist handicapped people. This has proven to be a wonderful program, not only for the dog and the person who might adopt the dog, but also for the inmates who will train them.

Commissioner Rehtin stated he had nothing further to report at this meeting.

Judge Pendery reported that the Northern Kentucky United event hosted by the Chamber of Commerce on June 8 and 9 was very well organized, relevant and very detailed information was provided. There were many subjects touched upon that it is hoped the Legislature takes under advisement in the next session. He gave kudos to the Chamber and all the people who participated in the organized events.

Judge Pendery next reported that the Criminal Justice Advisory Commission (CJAC) met on June 14, 2005 to discuss issues regarding the Campbell County Justice System and to address jail overcrowding issues. He stated that there has been very good attendance at these meetings from the Police Chiefs, Prosecutor's Office, Pretrial Services, and Judges, and the attendees have been extremely engaged in the discussions. At the June 14 meeting, a presentation was given from a representative of Pretrial Services on conditional release programs. It was awe inspiring to consider that 30-40% of the County's pretrial felons could be handled in a way other than through incarceration, should a protocol be developed. He stated that there are programs being rolled out in Louisville on July 9, 2005 that have the kind of benefits that Campbell County would like to see. The remainder of the month of July would be devoted to developing a

consensus and a protocol for how this would work in Campbell County, so that a program could potentially be up and running on August 1, 2005. Another meeting of the CJAC group will be held prior to that time to see what kind of progress is being made and if other possibilities have been developed. He stated he plans to meet with the Police Chiefs to suggest that the County needs to have a tiered admissions policy. This policy would include agreeing on a set of circumstances that should trigger a trip to the jail. Having agreed upon those circumstances, if someone is brought in for another reason, they will have to be shipped out to another jail. The County will still be responsible for the cost of that inmate for incarceration, but transportation costs will have to be borne by the Police Department that decided the arrest was necessary. This is a step short of establishing a cap, which would leave the County indiscriminately turning inmates away.

Commissioner Rehtin inquired as to whether protocols have been established in Louisville yet. Judge Pendery stated that the pretrial meeting would be held in July, and they should be pretty close. Commissioner Rehtin asked if there was any listing of what would gain admission and what would not. Mr. Horine stated that the protocols are on circumstances under which we would let a Pretrial felon out of jail and Pretrial Services would watch over them. Pretrial Services will be e-mailing the County a draft criteria, but each local jurisdiction will need to establish protocols that they are comfortable with since, ultimately, it is in the Judge's hands to determine if someone stays in jail or what their bond is. One item up for discussion is "Own Recognizance" bonds with conditions attached to them, such as weekly drug testing, or monitoring of some kind. Pretrial Services was inspired to do these programs after talking with pretrial organizations around the rest of the country and being aware of the overcrowding problem that exists in jails in Kentucky. They feel that they can do these programs with their existing staff, and will elevate some of their staff to "Case Manager" positions, as opposed to those who do assessments only. These Case Managers will be responsible for making sure inmates comply with the conditions of their release. This could prove very helpful to our community and many others around the State.

Judge Pendery stated that the CJAC committee process has generated three solid ideas. The Pretrial Services programs, community corrections approach, and the tiered admissions policy will all be researched further and decided upon. More ideas are needed regarding how to develop and sustain the discipline that will be necessary not to put more people in jail if a larger jail is built. If a new jail is built and it gets filled up with local people, the County loses more money. There must be a discipline that is sustainable with the people throughout the system that prevents that from happening. There are people who belong in jail and should always be arrested, but there are certain instances of people who can be handled in another way because of the cost to the taxpayer that is involved and the strain it puts on the County's resources.

Commissioner Hayden then thanked Jailer Greg Buckler and County Administrator Robert Horine for several hours of their time to give him a tour of the jail and help teach him about the nuts and bolts of the jail, and the issues that Mr. Buckler faces as a jailer.

Judge Pendery next announced that a Special Meeting of the Fiscal Court would be held on June 27, 2005 at 5:00 p.m., at the Fiscal Court Conference Room, 24 W. 4th Street, Newport, Kentucky, for the purpose of finalizing fiscal year-end issues.

Judge Pendery then stated that there have been some articles in the newspapers about a different approach by the Sanitation District where the treatment plant near Alexandria is concerned. The original thought, developed out of discussions with the Kentucky Division of Water, was that there needed to be an outfall line constructed from the plant about 5 miles long through the 12-Mile valley to the Ohio River. What ensued from there was some discussion among the neighbors about giving up the easements and there are a number of those neighbors who have not yet negotiated that out with the Sanitation District. The City of Cincinnati, spurred by their Water District people, raised many questions about an outfall line discharging effluent in proximity in their minds to the intake, even though Kentucky's regulations are a lot more stringent in that connection than Ohio's. Kentucky's regulations say 5 miles or more upstream, and Ohio's regulations say the outfall line can be within so many feet, not miles, of a water intake. In discussions with the Division of Water, the Sanitation District discovered that if they spend additional money on the treatment of the effluent at the plant and raise the quality of level of the water that is discharged, there will not be an outfall line required, because they will be able to discharge the water directly in the creek, and it will be cleaner than the water that is there. This will save money on the outfall line, even after spending money improving the operation at the plant. The Sanitation District has already held a meeting with the Steering Committee of the neighbors involved, and there will be an open meeting for all the neighbors in the 12-Mile valley at the 12-Mile Baptist Church on June 20, 2005 at 7:30 p.m. The reaction from this small group of neighbors was very good. Commissioner Otto inquired as to whether the creek level would rise due to the water that would be put in. Judge Pendery stated that the discharge at the current facility is 750,000 gallons per day. The new facility will discharge 1,000,000 gallons per day in the beginning. This is because they will be capturing more water on the average that goes through the plant. While this sounds like a lot of water discharge, it is not, in a water shed that encompasses 60-80 square miles. A 1,000,000 gallon tank can be drained in 24 hours. The plant will be sized in such a way that the discharge rate could be 4,000,000 gallons per day ultimately, but there would have to be a lot of growth in the area before that would happen.

Judge Pendery then asked for a report from the Fiscal Director. Mr. Seibert presented for second reading and passage consideration Ordinance O-07-05, which he read by title and provided a summary to the Court. He stated that this Ordinance adopts the Fiscal Year 2006 General Fund Budget for the Campbell County Fiscal Court. There being no further discussion, Commissioner Rehtin made a motion, seconded by Judge Pendery, that Ordinance O-07-05 be approved. Commissioner Hayden stated that he wished to abstain from voting on the Ordinance for the following reasons. He stated that he has only been a County Commissioner for two weeks. He has spent a considerable amount of time reviewing, studying and learning the nuts and bolts of the budget. He stated that the budget has been prepared, reviewed and approved by the County staff, including the Fiscal Director, James Seibert, and the County Administrator, Robert Horine. The budget has also been reviewed and approved by Judge/Executive Steve Pendery. The Fiscal Court has held public hearings on the budget to provide the public an opportunity to make comments on it. The budget was made available to the public for review and comment and to the best of his knowledge, the County has received no comments. The budget was sent to Frankfort for review by State officials, and reviewed and approved by those State officials. The budget has gone through a first reading by the Fiscal Court, and is being reviewed today on a second reading and there is no one from the public present at this meeting to question or challenge the budget. Commissioner Hayden stated he has concerns and questions about the budget, but at this point, he believes it is premature for him to reach any conclusions about it.

After thoughtful consideration, Commissioner Hayden has decided to abstain from voting on the budget. Judge Pendery explained to Commissioner Hayden that the County has a very open process when it comes to the budget. As each of the Department heads have meetings to talk about their departmental budgets, the Commissioners are invited to attend whichever of those meetings they would like. He stated that he could certainly understand Commissioner Hayden's choice to abstain from this vote. Judge Pendery, Commissioner Otto and Commissioner Rehtin then voted "AYE" and the motion passed by majority vote. Commissioner Hayden abstained from the vote.

Mr. Seibert next presented Resolution R-83-05, which he read by title and provided a summary to the Court for its consideration. He stated that this Resolution adopts the Fiscal Year 2006 Public Properties Budgets for Housing, Lakeside Senior Apartments, A.J. Jolly Golf Course, and Public Properties Fund. There being no further discussion, Commissioner Rehtin made a motion and Commissioner Otto seconded, to approve Resolution R-83-05. Commissioner Rehtin stated that he has discussed these budgets with the Fiscal Director and County Administrator and believes the A.J. Jolly Golf Course budget seriously needs to be addressed. He is hopeful that in the coming year the income versus expenses can be looked at to determine if the number of turns on the course, the expenses, or management that need to be addressed. Judge Pendery stated that perhaps some experimentation needed to be done, because there may be some assumptions being made about the elasticity of demand. Commissioner Rehtin stated that the County could also work with the other two counties to do some marketing, develop a golf trail, or other things to try to address this issue. Commissioner Hayden stated that marketing is a serious concern that he has when it comes to the Golf Course. One example, and not a critical one, is that this year the Italianfest had a golf fest and held it in Kenton County. There may have been some very good reasons for that, but he hears over and over again from organizations in Campbell County that have golf outings at Hickory Sticks or other places, but rarely hear of one being held at A.J. Jolly. He recognizes that he is not knowledgeable enough to know whether those golf outings are profitable for the golf course, but at least they give the course some exposure. When he looked at the budget, there was roughly \$1,700 spent on marketing, which seemed to be a relatively low amount to spend. Judge Pendery, Commissioner Otto and Commissioner Rehtin then voted "AYE" and the motion passed by majority vote. Commissioner Hayden abstained from the vote, citing the same reasons as he mentioned during the vote on Ordinance O-07-05.

Mr. Seibert next presented Resolution R-86-05, which he read by title and provided a summary to the Court for its consideration. He stated that this Resolution authorizes the Fiscal Court to participate in the Kentucky Association of Counties' (KACo) Advance Revenue Program, filing the necessary paperwork to borrow \$3,357,700 for the General Fund. These funds can be accessed at times in the year if the County's funds grow low, which is usually in the last quarter of the calendar year. Interest can also be earned on the funds borrowed. Commissioner Rehtin stated that he has concerns regarding this borrowing relative to liability. The potential tax liability to the County in that it is borrowing tax-exempt and if these funds are used merely for arbitrage only for creating that spread, this is not legally to be done. The County has not used these funds in the past, except for last year when it drew down on the funds and used them. He stated that he will vote in favor of this Resolution because the funds were used last year for a shortfall. Given the rise in costs of the jail and other expenses relating to it, the County will most likely need to use these funds again this year, but the question comes in these type of programs

that if the monies are not used and they are solely for the benefit of the interest earned on the money, the Federal government is charging back the interest and penalties. He would hope that since this loan is being made through KACo, they would be the agency responsible for penalties and interest if found to be wrong. There being no further discussion, Commissioner Otto made a motion and Judge Pendery seconded, to approve Resolution R-86-05. All voted "AYE" and the motion passed unanimously.

Mr. Seibert then presented Resolution R-87-05, which he read by title and provided a summary to the Court for its consideration. He stated that this Resolution authorizes the Fiscal Court to participate in KACo's Advance Revenue Program, filing the necessary paperwork to borrow \$498,100 for the Road Fund. There being no further discussion, Commissioner Rehtin made a motion and Judge Pendery seconded, to approve Resolution R-87-05. All voted "AYE" and the motion passed unanimously.

Mr. Seibert then presented Resolution R-88-05, which he read by title and provided a summary to the Court for its consideration. He stated that this Resolution adopts guidelines for the Area Development District Project Funds for Fiscal Year 2005 and Fiscal Year 2006. There is \$23,370 in funding available from the Northern Kentucky Area Development District for worthy projects in Campbell County. A process is set up to accept proposals from outside parties, with a rating criteria for the process. There being no further discussion, Commissioner Rehtin made a motion and Judge Pendery seconded, to approve Resolution R-88-05. All voted "AYE" and the motion passed unanimously.

Mr. Seibert then requested approval of the Claims being presented at this meeting. Assistant County Attorney Dowell advised that County Attorney Verst had reviewed the Claims and that they appeared to be appropriate. There being no further discussion, Commissioner Otto made a motion that the claims be approved and paid. Commissioner Rehtin seconded the motion. All voted "AYE" and the motion passed unanimously.

There being no further business to come before the meeting, it was moved by Commissioner Rehtin, seconded by Commissioner Otto, that the meeting be adjourned. All voted "AYE" and the meeting was adjourned at 6:20 p.m.
